Miniquiz #24

5 Minutes

Convert the following program into a CFG of def and use statements:

```
1: x = input();  
2: y = input();  
3: if (x < y) {  
4:     z = x + y;  
5:     a = x + z;  
6: } else {  
7:     z = x * y;  
8:     a = y + z;  
9: }  
10: b = a + y;  
11: print (b);
```
