Miniquiz #11

5 Minutes

For each of the code snippets featuring closures below, specify what would be outputted to the console:

1.

```
var f = fun ( x ) {  
    var g = fun ( y ) {  
        return x;  
    }  
    return g;  
}  
print(f(2)(3));
```

Output: 2

2.

```
var g = 3;  
var f = fun ( x ) {  
    var g = fun ( y ) {  
        return x * y;  
    }  
    return g(4);  
}  
print(f(g));
```

Output: 12

3.

```
var x = 5;  
var g = fun ( y ) {  
    x += y;  
}  
var f = fun ( y ) {  
    y(5);  
    return x;  
}  
print(f(g));
```

Output: 10
