Miniquiz #23

5 Minutes

Convert the following program into a CFG of def and use statements:

```
1: x = input();
2: y = input();
3: if (x < y) {
4:     z = x + y;
5:     a = x + z;
   } else {
6:     z = x * y;
7:     a = y + z;
   }
8: b = a + y;
9: print (b);
```
